PROFESSIONAL SUMMARY Backend-focused Full-Stack Engineer with over 6 years of expertise in Go, PostgreSQL, and microservices architecture. Adept at utilizing Domain-Driven Design and containerization (Docker, Kubernetes) to build, deploy, and scale robust applications. Strong track record of developing real-time, WebSocket-driven business systems that streamline operations.

PROFESSIONAL EXPERIENCE

Software Engineer | Phibela Industrial PLC, Ethiopia

Aug 2021 – Present

- **Led architecture and full-stack development** of a real-time production monitoring & evaluation system (Go + React + PostgreSQL + WebSocket) used across 8+ production lines, reducing manual reporting time from ~2 hours to under 5 minutes per shift.
- **Spearheaded a web-based sales management system** (Go + React + PostgreSQL) processing 8,000–12,000 transactions monthly, increasing sales team efficiency by ~35%.
- **Designed and implemented** a real-time WebSocket notification system delivering sub-second alerts to 50+ users for critical factory events.
- **Containerized 20+ microservices** with Docker and deployed to Kubernetes, reducing deployment time from 45+ minutes to ~8 minutes via CI/CD pipelines.

Backend Software Engineer (Contract) | Two F Times Trading PLC, Ethiopia

Feb 2021 – May 2021

- **Architected and developed** highly configurable RESTful APIs in Go (leveraging Gin, Echo, and Gorm) to power responsive, client-facing business solutions.
- **Streamlined the deployment lifecycle** by containerizing backend services with Docker and constructing Kubernetes-ready images, enabling rapid and scalable deployments.
- **Successfully delivered** a fully functional, production-ready backend system from scratch within an aggressive 3-month timeline.

Backend Software Engineer | Milto Labs PLC, Ethiopia

Feb 2020 – Jan 2021

- **Designed and implemented microservices** for a digital banking platform using Domain-Driven Design, Go, RabbitMQ, PostgreSQL, and MongoDB.
- **Wrote high-performance, well-documented code** that consistently passed strict code reviews and security standards.
- **Achieved >90% test coverage** on core services through comprehensive unit and integration testing.

TECHNICAL SKILLS

- **Languages:** Go (Expert), TypeScript, JavaScript, Python
- **Backend:** Gin, Echo, Gorm, Fiber, Gorilla
- **Frontend:** React, Material UI, Redux
- **Databases:** PostgreSQL, CockroachDB, MySQL, MongoDB, Redis, RabbitMQ
- **DevOps:** Docker, Kubernetes, WebSocket, CI/CD, Git, Linux

EDUCATION Bachelor of Science in Computer Science Addis Ababa University, Ethiopia |

2015 – 2019
